COMPANY

Trident Advisory is an independent, privately owned Australian consultancy with a specialised portfolio for management consulting services.

We strengthen business resilience by testing and validating operational processes.

Trident specialises in management consulting services for counter terrorism, cybersecurity, emergency response, risk management, business continuity and post-incident investigation.

The architecture of your business is constantly evolving within a complex dynamic of social and technological factors that impact the way you do business. Our consultants are highly equipped to help you to identify the key areas for improving your business performance.

Internally, a balanced workplace environment strengthens communication and increases productivity. Our aim is to identify processes that will enable your staff to strengthen their contribution towards your workplace environment, and in the best interests of long-term development.

Integral to our operations, we have an extensive network of consultants who are highly skilled and experienced within their field. For your convenience, we come to you to ensure that the solutions are fit for your environment.

Our team continue to deliver support by reducing operating risk through constructive relationship building, industry engagement, education and awareness. We focus on sustainable performance, continuous improvement and long-term return on investment as opposed to short term objectives. Above all we value your confidentiality.

SOLUTIONS

Trident Advisory is dedicated to designing practical innovative solutions.

Services we provide:

PRINCIPLES

Trident Advisory maintain confidentiality & strict practices to safeguard sensitive information.

Our consultants maintain confidentiality when attending to high-level clearance or market sensitive information. At all times, we manage the privacy of personal information.

Our commitment to you is to mitigate and manage risk by protecting dialogue during information exchange, and to ensure its' effectiveness at reducing risk.

Trident Advisory build a transparent and constructive relationship with our clients right from the start and consider this an ongoing process that extends beyond specific engagements through ongoing accessibility.

Industry engagement and awareness is essential for providing you with the right tools to implement calculated decision making. Knowledgeable accurate information is essential for your company to achieve and maintain sustainable growth.

Trident Advisory combine a full range of end-to-end secure counsel and business continuity consulting services across all commercial, industrial and government sectors.

We assist you to review your polices, plans and processes to ensure the alignment of key components for driving a successful business - and one that is prepared for any situation.

VALUES WE UPHOLD

CONFIDENTIAL × SECURE × ACCESSIBLE × INFORMED

SECTORS

CRISIS & EMERGENCY MANAGEMENT

Our Company Directors bring extensive operational and command experience in crisis and emergency situations.

CRITICAL INFRASTRUCTURE

Within a complex national security environment, critical infrastructures face increased risk. Insider threat, cyber security and physical security breaches impact your positioning within the national security setting.

GOVERNMENT AGENCY

Organisational objectives are as important as the ability for government agencies to work together at critical times. Our aim is to ensure management and staff are synchronised in their provision of these services.

SPORT & MAJOR EVENT MANAGEMENT

Planning and preparedness for event security, safety and operations. Trident Advisory assist you to identify and manage critical activities and relationships in preparation for successful event conduct.

MINING & HEAVY INDUSTRY

Implementing and ensuring safety to minimise risk and create efficiencies within our valuable resources and mining sectors.

BUSINESS NETWORKS

Trident Advisory consultants secure efficiency for your supply chain, underpinning emergency planning operations, internal procedures, training, and maximising their effectiveness within your organisation.

CRISIS MANAGEMENT

HOW TRIDENT CAN HELP

Once we completely understand your requirements our team will facilitate the best emergency management and contingency plan. We understand the critical importance of robust systems and refined management skills.

Every incident is different and preparedness may be the difference in successfully protecting lives and property.

Trident Advisory deliver improved client service while managing areas of risk. All operations are conducted with courtesy and respect - connecting colleagues, partners and clients to enhance organisational resilience.

Our process involves exploring opportunities to leverage existing common platforms, services and capabilities across all levels of government and private sector and those which will improve our clients experience.

Trident Advisory comprises a team of highly skilled and trained consultants who bridge the gap between written operating procedures and operations which will influence best practices.

Importantly, we work closely with you to identify key areas which require improvement and increased business performance.

Essentially this involves testing of written and recorded operating procedures, as well as validation of your processes and policies by trained facilitators.

In times of crisis or elevated risk, it is imperative there are no gaps or system failures in your documented procedures as these could prove critical to how your company, and key personnel, performs in a crisis situation.

SKILLED OPERATIVES

CAPABILITIES

Provision of clear, accurate and timely information as we work individually and collectively to uphold client values by demonstrating core service behaviours.

We are professional, committed to service, efficient, innovative, objective and effective.

Accountability and total transparency in our dealings.

Respectful of all people, their rights and heritage.

Ethical demonstration of leadership, integrity and capability to deliver the highest level of results.

Currently the level of public scrutiny and opinion occurs at real-time. It is important that we deliver an impartial independent service to our clients through honest advice that is timely and based on the best available evidence.

Key personnel change and move on, as does the operating environment in which they work. Our subject matter experts will work with you and your team to develop a measured and robust approach for testing your arrangements, and by documenting key outcomes. Effectively, this will help to identify areas which require prioritisation and improvement.

The key decision makers within Trident Advisory are positioned to assess the overall preparedness of your organisation by identifying external threats, and assessing any unplanned eventualities. It is important that your company is positioned to withstand public scrutiny or oversight.

We understand you cannot document and be ready for every conceivable eventuality. However, it is the duty of your company to provide all key personnel with a clear understanding of their role and responsibilities during an emergency or heightened threat.

CLIENT VALUES

IN CONSULTATION

Trident Advisory are positioned to excel within their specialised field.
